PROCEDURE

STEP 1 Read and understand all steps in the instructions before starting the installation. Park the motorcycle on a hard, level surface and turn off the ignition.

STEP 2 Using the back of your fingernail, rub the backing of the adhesive pad on the speaker grill to activate the catalyst. Remove the backing from the adhesive pad.

STEP 3 Center the accent over the speaker then press and hold the grill in place for one (1) minute. Full bonding strength will occur in 24 hours.

STEP 4 The tribar accent is an added feature for the speaker grill; it is not required to be used in all applications. If you are looking for a different look, Kuryakyn also has additional accents that could be used in the same location. (Part # 3784 and 3785 Sold Separately)

STEP 5 In the center hole of the speaker grill is where the tribar and/ or other accents will be placed (PIC 1). With the supplied alcohol pad, clean this area where the tribar/emblem will be placed. Allow the area to completely dry and wipe any residue that was left behind. With the back of your fingernail, rub the backing of the adhesive pad on the tribar/emblem to activate the catalyst. Remove the backing from the adhesive pad. Place the tribar/emblem in the desired location and press and hold for one (1) minute.
