Fender Eliminator 2009-2010 Aprilia RSV4

PARTS LIST

- Fender Eliminator Bracket 1

<<<<<< IT IS RECOMMENDED THAT THIS PRODUCT BE INSTALLED BY A QUALIFIED TECHNICIAN >>>>>>

- 1) Remove the stock fender
- 2) Remove the license plate illuminator light and bulb from their housing.
- 3) Remove the bulb from the illuminator plug.
- 4) Unplug the turn signal circuit from the wiring harness.
- 5) Remove the turn signals from the fender.
- 6) Using the stock screws, mount the turn signals on the Fender Eliminator routing the wires through the slots.
- 7) Mount the Fender Eliminator to the motorcycle using the stock bolts and nuts sending the wires through the large hole in the Fender Eliminator and the hole in the under tail section.
- 8) Mount the license plate to the Fender Eliminator using the stock screws and nuts.
- 9) Plug the turn signal circuit back into the main wiring harness.

NOTE: Be sure to re-install the turn signals on the correct sides of the fender eliminator.

After installation, double check to be sure that the rear turn signals work accordingly.

If the turn signals are installed on the wrong sides they will work in reverse.
