### LIMITED WARRANTY

Küryakyn warrants that any Küryakyn products sold hereunder, shall be free of defects in materials and workmanship for a period of one (1) year from the date of purchase by the consumer excepting the following provisions:

- Küryakyn shall have no obligation in the event the customer is unable to provide a receipt showing the date the customer purchased the product(s).
- The product must be properly installed, maintained and operated under normal conditions.
- Küryakyn makes no warranty, expressed or implied, with respect to any gold plated products.
- Küryakyn shall not be liable for any consequential and incidental damages, including labor and paint, resulting from failure of a Küryakyn product, failure to deliver, delay in delivery, delivery in nonconforming condition, or for any breach of contract or duty between Küryakyn and a customer.
- Küryakyn products are often intended for use in specific applications. Küryakyn makes no warranty if a Küryakyn product is used in applications other than intended.
- Küryakyn electrical products are warranted for one (1) year from the date of purchase by the consumer. L.E.D.'S contained in components of Küryakyn products will be warranted for defects in materials and workmanship for 3 years from the date of purchase where as all other components shall be warranted for one(1) year. This includes, but is not limited to; control modules, wiring, chrome & other components.
- Küryakyn makes no warranty of any kind in regard to other manufacturer's products distributed by Küryakyn. Küryakyn will pass on all warranties made by the manufacturer and where possible, will expedite the claim on behalf of the customer, but ultimately, responsibility for disposition of the warranty claim lies with the manufacturer.

**STEP 2** Remove the stock floorboards from the bike, set the boards and hardware aside, they will not be reused.

**STEP 3** Determine the position that you would like the boards using the diagram below. The Flip boards will allow you to choose from 1-1/4" forward to 1-1/4" behind the stock location, depending on the mounting holes chosen. They will also allow you to move the Flip Boards outward 3/4" from the stock location.

**STEP 4** After deciding which position you would like the boards to be in, attach the front bracket to the bottom of one of the Flip Boards using two of the included 5/16"-18 X 3/4" Socket Head Cap Screws, with a 5/16" Lock Washer on each and a drop of Blue Loctite on each, through the bracket to the board. **Tighten these to 15-18 foot pounds of torque.** Repeat this for the other three brackets.

**STEP 5** Install the Flip Boards to the motorcycle using the included 1/4"-20 X 1-1/2" Shoulder bolts, flat washers and 1/4" lock nuts. Tighten securely.

**STEP 6** To open the Flip Blade foot rest, use your heel to slide the lock back and the peg will spring out. **PIC 1** To close the Flip Blade, pull it back with your heel, and it will lock back under the floor board.

**WARNING** FAILURE TO TIGHTEN THE MOUNTING BRACKETS ON THE FLIP BOARDS PROPERLY MAY RESULT IN LOSS OF CONTROL OF THE MOTORCYCLE CAUSING SEVERE INJURY OR DEATH.

**WARNING** THE INSTALLATION OF AFTERMARKET PEGS/BOARDS MAY AFFECT GROUND CLEARANCE WHEN CORNERING.

**CAUTION** The footpeg on the Flip Boards is spring loaded. Ensure the surrounding area is clear before releasing the footpeg from the locked position.

**CAUTION** Ensure that the installation of this product does not interfere with the proper operation of the motorcycle before riding.

**NOTICE** It is the installer's responsibility to ensure that all of the fasteners (including pre-assembled) are tightened before operation of the motorcycle. Küryakyn will not provide warranty coverage on products or components lost due to improper installation or lack of maintenance. Periodic inspection and maintenance are required on all fasteners.
