STRICTLY OBSERVE THE FOLLOWING GUIDELINES IN ORDER TO USE THE PRODUCT PROPERLY AND AVOID POTENTIALLY DANGEROUS ACCIDENTS.

PROCEDURE

STEP 1 Read and understand all steps in the instructions before starting the installation. Park the motorcycle on a hard, level surface; turn off the ignition and allow the engine to cool.

STEP 2 Remove the four-socket head cap screws on the end cap from your all ready-installed Kuryakyn grip. Keep the trim ring because you will reuse it.

STEP 3 Place the trim ring on the new bar end weight and place it on to the grip. Secure it with four 4-40 x 1/2" Socket Head Cap Screws.

NOTE Make sure the chrome end cap inserts are in place before tightening the screws

STEP 4 Repeat steps 2 and 3 for opposite side installation.

ATTENTION! It is the installer's responsibility to ensure that all of the fasteners (including pre-assembled) are tightened before operation of the motorcycle. Kuryakyn will not warranty components lost due to improper installation. Periodic maintenance may be required.
