

Mounting instructions: Wolfman Expedition Dry and Zippered Duffles #DB-1to4
Thank You for Purchasing Wolfman Luggage!

The Rear of the Expedition Dry Roll Top Duffles have the Wolfman logo.

Roll the top down 3-4 times for maximum seal.

Use top and side compression straps sewn on duffle to snug the load.

Mounting Ideas:

The Soft Loop Mounting Straps - can be attached to the passenger peg brackets, frame rail, side racks, grab handles, or top rack if equipped

1-Unclip buckles, the straps attach individually. Thread the loop end of the mounting strap through a slot in the top rack. FIG1

FIG2

FIG3

2-Pass the buckle and webbing through the loop. FIG2

3-Pull webbing to cinch the strap tight on the top rack. FIG3

4-Repeat for rest of the straps.

5-Correctly Mounted Expedition Dry Duffle. For maximum security thread the mounting straps through each of the D-rings front and rear. (The front and rear D-Rings are to attach more gear to the Expedition Dry Duffle such as, a tent, sleeping pad, etc.) FIG4
