All Ciro products are designed for "easy assembly" and/or "plug and play". We recommend a competent mechanic install our products, using standard mechanical procedures to assure a safe and successful installation.

NOTE:
Ciro products are designed and manufactured under very strict quality control. Ciro warrants that products sold to the original purchaser shall be free from any defects in materials and workmanship for a period of 3 (three) years from the date of purchase, and a lifetime warranty against LED failure. Ciro will have no obligation if the customer cannot show proof of purchase. Warranty will not be granted unless the part is properly installed and maintained. Ciro will not be liable for any consequential and incidental damages, including labor, or non-Ciro products. Please visit our website Ciro3d.com for our complete warranty policy.

ATTENTION: The connector pins on the ends of the wire are delicate. Be careful when handling them.

10. Insert the wire into the hole drilled into the Tour Pack lid in step 6. Use tape to hold the Ciro Streak Light in place on the lid.

11. Slide the wire under the plate in the bottom of the Tour Pack. When it comes out near the left front corner, install the grommet into the hole drilled in step 8. Push the wire through the grommet and pull it out the other side. A small amount of soap and water will help. FIG. 3 - 4 - 5.

12. Place the female connectors onto the male connectors on the Ciro wire harness. Align the brown and black wires into one connector. Align the red, blue, violet wires into the other connector. Gently push the pins into the female connectors. FIG. 6

13. Install the Ciro wire harness in line with the 6-pin harness on the motorcycle. Plug in the Streak Light connectors. FIG. 7

FIG.5

FIG.6

FIG.7

14. Turn on the ignition and test the Ciro Streak light functions.

15. Clean the surface where the Ciro Streak light installs.
ATTENTION: Thoroughly clean the mounting surface with denatured alcohol to remove all wax, oil, and residue.
NOTE: New motorcycles are delivered from the factory covered in protective oil. Remove it before installing this product.
NOTE: Do not install if the temperature is below 50° F. The adhesive will not cure properly.

16. Peal off the adhesive liner from the Streak Light. Put the light into place and press firmly for 30 seconds.

17. Route the wire over the hinge. Secure it to the Tour Pack lid with the included zip tie keepers. Install the Tour Pack liner. FIG.5

18. Under the seat route the wire harness along the left side of the frame and secure it using zip ties. Reinstall the seat.

19. To use Lightstrike follow the included instructions.

LIGHTSTRIKE TECHNOLOGY™

Lightstrike Technology uses your smartphone and Bluetooth to control this product.

1) Download the Lightstrike app where you get your iOS or Android phone apps.
2) The default password is 000000 (six zeros).
3) For additional information and video scan the QR code.
